TEAM ENTRY

There will be a team match for each championship, open to three-person teams representing NRA-affiliated Clubs eligible under Rule 2.11 and NRA-affiliated State Associations eligible under Rule 2.12 of the 2016 NRA Silhouette Rules. Other associations composed of more than one club may enter teams. Team entries will ONLY be accepted on the range at each championship and must be made before any team member in that championship fires the first shot. State Associations or Clubs may enter more than one team, but no competitor may fire on more than one team in any championship. Team members will be required to present their State Association or Club membership cards. Teams will be classified according to Rule 19.12 of the 2016 NRA Silhouette Rules.

CATEGORIES

These are Open Championships based on classification only. Special awards will be given in each Championship Aggregate. Competitors are eligible for one special award only and must indicate on their entry cards the category in which they will compete. Special category award winners are eligible to receive any open or class awards to which they are entitled. The Open Winner, Open Second and Open Third may not receive class awards. A special certificate will be awarded to the high scoring senior in each Championship Aggregate who is 70 years old or older in 2016. These certificates will be mailed from NRA Headquarters after all championships are finished. There will be no Special category awards in the team match.

JUNIOR ENTRY COUPONS

A person entering the National Championships as a Junior, Intermediate Junior or Sub-Junior with a junior entry

coupon from an NRA Regional or State Championship must compete in the category appropriate to his/her current age. Junior competitors who wish to enter, as an adult must pay the full adult entry fee. A junior coupon may be used as a credit for one-half of the adult entry fee.

NOTE TO NON-U.S. CITIZENS

Non-U.S. citizens are not eligible to receive any trophy firearms offered as awards at any NRA National Silhouette Championship. The U.S. National Championship may be won by citizens of any country, except by those whose countries restrict participation in their national championship to their own citizens.

CLASSIFICATIONS

The NRA Silhouette classification system will be used. Individuals who do not have a classification in the Championship in which they plan to compete, will fire in the Master Class. Classification Score Record Booklets must be presented when registering at the range.

Competitors who are U.S. citizens and do not have a 2016 NRA Silhouette Classification Score Record Booklet for the event(s) in which they plan to compete will be required to purchase a booklet for \$13.00.

IHMSA shooters who do not have an NRA classification will present their current IHMSA shooting record. The three (3) highest scores will be used to establish classification at these championships. All others will shoot in the Master Class.

FOREIGN COMPETITOR CLASSIFICATIONS

Non-U.S. citizens are not required to possess an NRA Classification Score Record Booklet, but must have score information that can be converted to the current NRA classification scores so such competitors can compete in the correct class. Non U.S. citizens who do not have scores posted on the appropriate NRA classification score record after January 1, 2016 shall submit a letter certified correct by their home club president listing at least the high 3 scores fired in open competition (30- or 40-shot matches) during the preceding 12 months. These scores, if 30 shot matches, will be equated to 40-shot scores, and the two highest scores will be used to establish classification at these championships. All others will shoot in the Master Class.

RECLASSIFICATION DURING A CHAMPIONSHIP

In accordance with Rule 19.17 of the 2016 NRA Silhouette

Rules, if a competitor fires a score two or more classes above his current class in any of the fired matches comprising the Championship Aggregate or the registered warm-up match, he or she will be reclassified to one class below the class in which that high score falls for that fired match, any subsequent fired matches, and for the Championship Aggregate. The competitor will retain any awards received in his or her previous lower classification.

SQUADDING

These are squadded championships. Persons firing in concurrent championships will be squadded to allow sufficient preparation time between guns. Target assignments will be made by lot for the first match. For subsequent matches, competitors will be shifted according to formula, both for relay and starting position. Competitors will not change relays or target assignment without approval from the Statistical Office. All championships will be squadded so that all competitors fire on one animal before moving to their next animal. NOTE: PRE-REGISTRATION IS A REQUIREMENT FOR PERSONS FIRING CONCURRENT CHAMPION-SHIPS.

SPECIAL SQUADDING REQUESTS

Requests for special squadding of competitors sharing equipment, etc., will be accommodated if possible, on a first come, first served basis. These requests must be made IN WRITING, and entries for all competitors involved must be included with the request. Special squadding requests cannot be considered for post entries.

CERTIFICATION OF ARMS AND EQUIPMENT

Rifles and pistols will be weighed and certified for configuration before the championship. Non-certified firearms and equipment will not be allowed on the firing line. All rifles, pistols and equipment requiring certification may be re-inspected at random by the Official Protest Committee at any time.

EMPTY CHAMBER INDICATOR (ECI)

ECIs will be required at all Championships.

EYE AND EAR PROTECTION

NRA Whittington Center requires eye and ear protection for all persons on the firing line. At all other events, it is strongly suggested all persons wear eye and ear protection also.

If you are unable to shoot with eye and/or ear protection, you will not be allowed to compete in the National Championships conducted at NRAWC. At all other locations, if the club requires eye and ear protection, they must be used. Should a person using shooting glasses, with a hole cut in the lens or lacks a lens completely while on the firing line, they will be considered as not wearing eye protection.

SAFETY

All rules for safety will be strictly enforced. Failure to conform will be basis for disqualification.

A. There will be absolutely no handling of firearms while target setting is in progress. Smallbore Rifle, High Power Rifle, Cowboy Rifle, and Hunter's Pistol competitors will be required to step off the firing line. Long Range Pistol, Smallbore Pistol, and Black Powder Cartridge Rifle/Scope competitors will be required to bench or box their firearms with the actions open. Any cleaning of black powder cartridge rifles on the firing line must be done during the 30 second ready period or during the sighting/record shot period.

B. Rifle or pistol actions will be open at all times except on the firing line after the command "READY" has been given. At the command "CEASE FIRE", all firearms will be opened IMMEDIATELY, unloaded and placed on stands, (except after a stage when OPENED firearms are removed from the firing line.) ECIs will be inserted in the action of all firearms after the command "CEASE FIRE" has been given. They will remain in place, both on and off the firing line and will not be removed until the command "READY" is given or the firearm is being cleaned.

C. "Dry firing" or aiming firearms behind the firing line is prohibited. Firing line commands must be observed by users in the dry firing area.

D. When not on the firing line, firearms will be placed in racks, in cases, or other safe places.

E. A shot fired before "READY" will result in disqualification for the day's match.

F. The Match Director or the Official Protest Committee has the authority to ban any competitor, firearm or ammunition at any time for reasons of safety.

G. Possession or consumption of any alcohol, narcotic or controlled substance, either on the range or in the spectator

or public areas adjacent to the range while the range is in use, is prohibited. Disorderly conduct or intoxication is not permitted on the range or on any adjacent range property. Violators of this regulation will be subject to immediate disqualification from these Championships with no return of entry fees.

H. As a courtesy to other competitors, smoking on the firing line is prohibited while the range is in use.

I. Each Championship location requires that all competitors must wear eye and ear protection while using the ranges. Everyone in the immediate vicinity of the range complex is also urged to wear eye and ear protection.

EXCESSIVE WIND

If excessive wind conditions exist, shooting may continue on gongs in groups of 5 shots as long as conditions exist. Gongs must be the same size and shape as the target required for the distance being shot at.

SCOREKEEPING

Scorekeepers will be provided. Competitors are required to examine scorecards after each five-shot series and to initial cards before leaving the firing line. Any scoring differences must be resolved immediately after the five-shot series involved and before the targets are reset. If a scorecard is not validated, the recorded score will stand and no changes will be made.

TIES

For information on the decision of ties, please refer to each particular championship section of the program.

PROTESTS

A competitor may make a formal protest in accordance with Section 16 of the 2016 NRA Silhouette Rules. There will be a \$10.00 protest fee, which will be returned to the competitor if his or her protest is upheld.

OFFICIAL NRA NATIONAL CHAMPIONSHIP PROTEST COMMITTEE

A five-person Official Protest Committee comprised of competitors from various locations around the United States will be appointed by the Match Director and will function in accordance with Sections 11 and 20 of the 2016 NRA Silhouette Rules. However, decisions rendered by the National Championship Protest Committee during an NRA

National Championship shall not contravene prior interpretation of the NRA Rules and/or precedents established by the NRA National Protest Committee.

LONG RUN RECORD ATTEMPTS

In accordance with Rule 9.7 of the 2016 NRA Silhouette Rules, competitors at the High Power Rifle Silhouette Championships ONLY who fire a perfect score in the turkey and ram stage HPR/HPCR, will be permitted to continue to fire five-shot strings until missing, either at the conclusion of the stage or at the conclusion of all firing for the day's match, at the competitor's option. Due to the total time of firing in some Championships, it may be necessary to restrict Long Run firing to the end of the day's match. See Match Director's Bulletins on this subject. At all other National Championships, such Long Run Record attempts will be made at the conclusion of that day's match. In all Championships where at least 30 minutes have passed since the completion of the competitor's perfect stage, the competitor will be authorized one sighter shot, (for BPCR a two minute period is allowed in which any number of shots may be taken) which may be taken and will not count toward the Long Run Record attempt.

5, 10 and 15 IN-A-ROW PINS

The NRA will provide 5, 10 and 15 in-a-row pins for all National Silhouette Championships. Pins will be distributed as follows:

Smallbore Rifle/Smallbore Hunting Rifle:

A	5 & 10 pins
B	5 & 10 pins

To receive a 5, 10 or 15 in-a-row pin in a match where the total number of shots is 15 or 20, the consecutive hits must be continuous (example: 15 in-a-row in a 20 shot match must be either the first 15 or the last 15 shots).

GRAND SLAM CLUB

To receive credit for 10 straight, the 10 shots must be continuous (Example: The first, middle or last 10 shots in a 20 shot match).

PROPER ATTIRE

In keeping with the tradition established by NRA in shooting events, and recognizing the publicity the National Championships attract, it is important to promote an acceptable image for competitive shooting. Attire worn during all phases of the championships should be in good taste and appropriate to such a prestigious sporting event. Articles of clothing with controversial or offensive slogans/illustrations are strongly discouraged.

NRA AWARD POINTS

NRA Award Points are issued in denominations of 1, 2, 3, 5, 10, and 20 points. NRA Award Points can be used at full face value for any purpose in dealing with the NRA. You may use them to pay your NRA membership dues, Classification Score Record Book fee, entry fee, or to purchase any item for sale by the NRA. Award Points are also accepted at full face value by the NRA Whittington Center. NRA Award Points will be awarded to all shooters in the individual matches. Trophies will be awarded to all winners in each Aggregate. See each Championship for award point break down.

NCAA COMPETITORS, PLEASE NOTE

In action taken by the NCAA on April 25, 2002, the Division I Board of Directors approved a change to the NCAA Bylaws that permits an individual, prior to collegiate enrollment, to accept prize money (to include NRA Award Points) based

on place finish in an event without jeopardizing intercollegiate eligibility, as long as the prize money does not exceed actual and necessary expenses for that event. Any questions should be directed to the NCAA Membership Services staff at (317) 917-6222.

VENDORS

Vendors will be allowed to display and sell their merchandise at any NRA Silhouette Championship. There will be a \$30.00 charge per day for such activity at the NRA Whittington Center. For more information on the NRA Whittington Center charges and availability, call (575) 445-3615.

Rule 3.1.3 Cowboy Lever Action Silhouette Rifle –Listed below are the three classes of Cowboy Silhouette Rifles. The below listed rules (a-f) apply to all classes of Cowboy Silhouette Rifles. c) Ammunition may be loaded with smokeless or black powder, using jacketed or cast bullets, with or without gas checks. All bullets must be round or flat nosed suitable for tubular magazine use. Any cartridge causing target damage or deemed unsafe may be banned.

d) Firing period will include a 30 second ready (loading) period, and 2 minutes for 5 shots. Ammunition must be loaded through the tubular magazine. Ammunition may not be loaded directly into the chamber.

B. Corrective lenses are allowed only in the rear sight.

C. P.A.S.T.-type recoil shields are permitted in accordance with Rule 3.12(d).

Target Setting (Cowboy Lever Action Only)

To ensure that full-size rams will be knocked down with reasonable loads, they should be set so that the center of gravity works through a plane intersecting the stands approximately 1¼" forward of the rear edge. This can be accomplished by experimentally moving the target to the rear until it topples, and then moving it forward 1". Stands can be designed to incorporate stops to facilitate setting the targets at the proper topple point. Pistol Cartridge Cowboy Lever Action and Smallbore Cowboy Rifle targets are to be set full-foot and flush with the backs of their stands.

AMMUNITION ALLOWED

Any appropriate ammunition as listed in Rule 3.1.3, which is not damaging to the targets may be used. Magnums, armor piercing, tracer and incendiary ammunitions are prohibited. The Match Director may prohibit the use of ammunition that proves damaging to the targets. In accordance with Rule 10.7 of the 2016 NRA Rules, only five (5) rounds of loose ammunition will be placed on the shooting stand for each series.

RIFLE POSITION DURING TARGET SETTING

NRA Whittington Center requires NO rifles may be pointed down range when any personnel, including target setters, are visible in front of the firing line. Rifles will be in a vertical position with the Empty Chamber Indicator (ECI) inserted in the chamber, either in the notch on the firing point tray or with the spotter or competitor holding the rifle with the muzzle pointed up.

TARGET COLOR

Targets for the Cowboy Lever Action, Pistol Cartridge and Smallbore Rifle Championships will be painted black.

COWBOY LEVER ACTION FIRING PROCEDURE

The Long Range Pistol range, on which the Cowboy Lever Action event is fired, is arranged in such a fashion that the normal sequence of fire: Chicken – Pig – Turkey – Ram, requires an excess of movement to complete the CLA event. Therefore, a different order will be used to shorten the movement to fire the complete event. Competitors will shoot either CHICKEN/TURKEY or PIG/RAM in the AM and then shoot either PIG/RAM or CHICKEN/ TURKEY in the PM to complete the course.

FIRING LINE

The Hunter's Pistol Range used for Pistol Cartridge and for Smallbore has a covered firing line. The Long Range Pistol Range used for Cowboy Lever Action, has a covered firing line.

COMPETITORS MEETING

There will be competitors meeting on Tuesday, July 12, 2016, at the conclusion of the awards ceremony. The meeting will be held on the Range and will provide opportunities to discuss competition programs and rules with members of the NRA Silhouette Committee. All competitors are invited to attend.
