David Hassinger has left the range.

We will miss a great friend and shooter. David was a Metallic Silhouette Match Director and an avid competitor with his gun club in Texas and was also a TSRA Pistol Silhouette Director. He was an NRA national champion in Hunter's Pistol and Cowboy Silhouette Rifle competitions and a world record holder in the International Handgun Metallic Silhouette Shooting Associates (IHMSA) Air Pistol competition, shooting 39 out of 40 animals with open sights. Always the man to ask for the latest info on ammo or equipment, he was always tinkering with something. He enjoyed sharing his expertise with adults and youth alike. Farewell, David.

2013 SILHOUETTE COMMITTEE

The committee is responsible for establishing the policies and rules for the conduct of U.S. and international type programs and of animal silhouette shooting programs with the objective of stimulating greater interest and participation among NRA members and the general public.

**National Rifle Association
Silhouette Department
11250 Waples Mill Road
Fairfax, VA 22030-9400**

TEAM ENTRY: There will be a team match for each championship, open to three-person teams representing NRA-affiliated Clubs eligible under Rule 2.11 and NRA-affiliated State Associations eligible under Rule 2.12 of the 2013 NRA Silhouette Rules. Other associations composed of more than one club may enter teams. Team entries will **ONLY** be accepted on the range at each championship and must be made before any team member in that championship fires the first shot. State Associations or Clubs may enter more than one team, but no competitor may fire on more than one team in any championship. Team members will be required to present their State Association or Club membership cards. Teams will be classified according to Rule 19.12 of the 2013 NRA Silhouette Rules.

CATEGORIES: These are Open Championships based on classification only. Special awards will be given in each Championship Aggregate. Competitors are eligible for **one** special award only and must indicate on their entry cards the category in which they will compete. Special category award winners are eligible to receive any open or class awards to which they are entitled. The Open Winner, Open Second and Open Third may not receive class awards. A special certificate will be awarded to the high scoring senior in each Championship Aggregate who is 70 years old or older in 2013. These certificates will be mailed from NRA Headquarters after all

championships are finished. There will be no Special category awards in the team match.

JUNIOR ENTRY COUPONS: A person entering the National Championships as a Junior, Intermediate Junior or Sub-Junior with a junior entry coupon from an NRA Regional or State Championship must compete in the category appropriate to his/her current age. Junior competitors who wish to enter, as an adult must pay the full adult entry fee. A junior coupon may be used as a credit for one-half of the adult entry fee.

NOTE TO NON-U.S. CITIZENS: Non-U.S. citizens are not eligible to receive any trophy firearms offered as awards at any NRA National Silhouette Championship. The U.S. National Championship may be won by citizens of any country, except by those whose countries restrict participation in their national championship to their own citizens.

CLASSIFICATIONS: The NRA Silhouette classification system will be used. Individuals who do not have a classification in the Championship in which they plan to compete, will fire in the Master Class. Classification Score Record Booklets **must** be presented when registering at the range.

Competitors who are U.S. citizens and do not have a 2013 NRA Silhouette Classification Score Record Booklet for the event(s) in which they plan to compete will be required to purchase a booklet for \$13.00.

IHMSA shooters who do not have an NRA classification will present their current IHMSA shooting record. The three (3) highest scores will be used to establish classification at these championships. All others will shoot in the Master Class.

FOREIGN COMPETITOR CLASSIFICATIONS: Non-U.S. citizens are not required to possess an NRA Classification Score Record Booklet, but must have score information that can be converted to the current

General Regulations

NRA classification scores so such competitors can compete in the correct class. Non U.S. citizens who do not have scores posted on the appropriate NRA classification score record after January 1, 2013 shall submit a letter certified correct by their home club president listing at least the high 3 scores fired in open competition (30- or 40-shot matches) during the preceding 12 months. These scores, if 30 shot matches, will be equated to 40-shot scores, and the two highest scores will be used to establish classification at these championships. All others will shoot in the Master Class.

RECLASSIFICATION DURING A CHAMPIONSHIP: In accordance with Rule 19.17 of the 2013 NRA Silhouette Rules, if a competitor fires a score two or more classes above his current class in any of the fired matches comprising the Championship Aggregate or the registered warm-up match, he or she will be reclassified to one class below the class in which that high score falls for that fired match, any subsequent fired matches, and for the Championship Aggregate. The competitor will retain any awards received in his or her previous lower classification.

SQUADDING: These are squadded championships. Persons firing in concurrent championships will be squadded to allow sufficient preparation time between guns. Target assignments will be made by lot for the first match. For subsequent matches, competitors will be shifted according to formula, both for relay and starting position. Competitors will not change relays or target assignment without approval from the Statistical Office. All championships will be squadded so that all competitors fire on one animal before moving to their next animal. **NOTE: PRE-REGISTRATION IS A REQUIREMENT FOR PERSONS FIRING CONCURRENT CHAMPIONSHIPS.**

SPECIAL SQUADDING REQUESTS: Requests for special squadding of competitors sharing equipment, etc., will be accommodated if possible, on a first come, first served basis. These requests must be made **IN WRITING**, and entries for **all**

competitors involved must be included with the request. Special squadding requests cannot be considered for post entries.

CERTIFICATION OF ARMS AND EQUIPMENT: Rifles and pistols will be weighed and certified for configuration before the championship. Non-certified firearms and equipment will not be allowed on the firing line. All rifles, pistols and equipment requiring certification may be re-inspected at random by the Official Protest Committee at any time.

EMPTY CHAMBER INDICATOR (ECI): ECIs will be required at all Championships.

EYE AND EAR PROTECTION: NRA Whittington Center requires eye and ear protection for all persons on the firing line. At all other events, it is strongly suggested all persons wear eye and ear protection also.

If you are unable to shoot with eye and/or ear protection, you will not be allowed to compete in the National Championships conducted at NRAWC. At all other locations, if the club requires eye and ear protection, they must be used. Should a person using shooting glasses, with a hole cut in the lens or lacks a lens completely while on the firing line, they will be considered as not wearing eye protection.

SAFETY: All rules for safety will be strictly enforced. Failure to conform will be basis for disqualification.

A. There will be absolutely no handling of firearms while target setting is in progress. Smallbore Rifle, High Power Rifle, Cowboy Rifle, and Hunter's Pistol competitors will be required to step off the firing line. Long Range Pistol, Smallbore Pistol, and Black Powder Cartridge Rifle/Scope competitors will be required to bench or box their firearms with the actions open. Any cleaning of black powder cartridge rifles on the firing line must be done during the 30

General Regulations

second ready period or during the sighting/record shot period.

B. Rifle or pistol actions will be open at all times except on the firing line after the command "READY" has been given. At the command "CEASE FIRE", all firearms will be opened IMMEDIATELY, unloaded and placed on stands, (except after a stage when OPENED firearms are removed from the firing line.) ECIs will be inserted in the action of all firearms after the command "CEASE FIRE" has been given. They will remain in place, both on and off the firing line and will not be removed until the command "READY" is given or the firearm is being cleaned.

C. "Dry firing" or aiming firearms behind the firing line is prohibited. Firing line commands must be observed by users in the dry firing area.

D. When not on the firing line, firearms will be placed in racks, in cases, or other safe places.

E. A shot fired before "READY" will result in disqualification for the day's match.

F. The Match Director or the Official Protest Committee has the authority to ban any competitor, firearm or ammunition at any time for reasons of safety.

G. Possession or consumption of any alcohol, narcotic or controlled substance, either on the range or in the spectator or public areas adjacent to the range while the range is in use, is prohibited. Disorderly conduct or intoxication is not permitted on the range or on any adjacent range property. Violators of this regulation will be subject to immediate disqualification from these Championships with no return of entry fees.

H. As a courtesy to other competitors, smoking on the firing line is prohibited while the range is in use.

I. Each Championship location requires that all competitors must wear eye and ear protection while using the ranges. Everyone in the immediate vicinity of the range complex is also urged to wear eye and ear protection.

EXCESSIVE WIND: If excessive wind conditions exist, shooting may continue on gongs in groups of 5 shots as long as conditions exist. Gongs must be the same size and shape as the target required for the distance being shot at.

SCOREKEEPING: Scorekeepers will be provided. Competitors are required to examine scorecards after each five-shot series and to initial cards before leaving the firing line. Any scoring differences must be resolved immediately after the five-shot series involved and before the targets are reset. If a scorecard is not validated, the recorded score will stand and no changes will be made.

TIES: For information on the decision of ties, please refer to each particular championship section of the program.

PROTESTS: A competitor may make a formal protest in accordance with Section 16 of the 2013 NRA Silhouette Rules. There will be a \$10.00 protest fee, which will be returned to the competitor if his or her protest is upheld.

OFFICIAL NRA NATIONAL CHAMPIONSHIP PROTEST COMMITTEE: A five-person Official Protest Committee comprised of competitors from various locations around the United States will be appointed by the Match Director and will function in accordance with Sections 11 and 20 of the 2013 NRA Silhouette Rules. However, decisions rendered by the National Championship Protest Committee during an NRA National Championship shall not contravene prior interpretation of the NRA Rules and/or precedents established by the NRA National Protest Committee.

LONG RUN RECORD ATTEMPTS: In accordance with Rule 9.7 of the 2013 NRA Silhouette Rules, competitors at the High Power Rifle and Black Powder Cartridge Rifle/BPCRS Silhouette Championships ONLY who fire a perfect score in the turkey and ram stage HPR/HPHR, chicken stage BPCR/BPCRS will be permitted to continue to fire five-shot strings until missing, either at the conclusion of the stage or at the conclusion of all firing for the day's match, at the competitor's option. Due to the total time of firing in some Championships, it may be necessary to restrict Long Run firing to the end of the day's match. See Match Director's Bulletins on this subject. At all other National Championships, such Long Run Record attempts will be made at the conclusion of that day's match. In all Championships where at least 30 minutes have passed since the completion of the competitor's perfect stage, the competitor will be authorized one sighter shot, (for BPCR a two minute period is allowed in which any number of shots may be taken) which may be taken and will not count toward the Long Run Record attempt.

NRA AWARD POINTS: NRA Award Points are issued in denominations of 1, 2, 3, 5, 10, and 20 points. NRA Award Points can be used at full face value for any purpose in dealing with the NRA. Trophies will be awarded to all winners in each Aggregate. See each Championship for award point break down.

NCAA COMPETITORS, PLEASE NOTE: In action taken by the NCAA on April 25, 2002, the Division I Board of Directors approved a change to the NCAA Bylaws that permits an individual, prior to collegiate enrollment, to accept prize money (to include NRA Award Points) based on place finish in an event without jeopardizing intercollegiate eligibility, as long as the prize money does not exceed actual and necessary expenses for that event. Any questions should be directed to the NCAA Membership Services staff at (317) 917-6222.

VENDORS: Vendors will be allowed to display and sell their merchandise at any NRA Silhouette Championship. There will be a \$30.00 charge per day for such activity at the NRA Whittington Center. For more information on the NRA Whittington Center charges and availability, call (575) 445-3615.

Rule 3.1.3 Cowboy Lever Action Silhouette Rifle –

Listed below are the three classes of Cowboy Silhouette Rifles. The below listed rules (a-f) apply to all classes of Cowboy Silhouette Rifles. (The intent of these rules is to establish a match for common hunting carbines and other lever action rifles. The match is focused toward shooters who enjoy shooting hunting arms and do not want to make the investment required of other specialized types of shooting competitions.

- a) Rear sights may be open, receiver or tang sights, mounted as originally intended. No extended mounts are permitted. The front sight must be a post or bead or if changeable inserts, may use a post or bead insert only. A front sight anti-glare tube, which may be no longer than 1 1/8" to include any attachments and no larger than a 3/4" outside diameter, may be used.

Fiber optic material may be used in or on the post or bead and may not be longer than its support blade and not to exceed 1 1/8" in length. In an anti-glare tube the fiber optic material may not be any longer than the tube or extend outside the tube. *The fiber optic sights do not need to be commercially manufactured.*

- b) Barrels must be original or may be relined. Original barrels rebored to a larger caliber are allowed. Any safe trigger is allowed. Stocks must be of original configuration. Recoil pads, replacement butt plates, and removable cheek pieces are allowed.
- c) Ammunition may be loaded with smokeless or black powder, using jacketed or cast bullets, with or without gas checks. All bullets must be round or flat nosed suitable for tubular magazine use. Any cartridge causing target damage or deemed unsafe may be banned.

- d) Firing period will include a 30 second ready (loading) period, and 2 minutes for 5 shots. Ammunition must be loaded through the tubular magazine. Ammunition may not be loaded directly into the chamber.
- e) Binoculars may be used for spotting. Spotting scopes or stands may not be used. Clothing that adds stability to the shooting position is not allowed. Rule 6.9, concerning wind flags will not apply. Personal wind indicating devices are not allowed in the vicinity of the competitors.
- f) Classification:

Master	35-40
AAA.....	29-34
AA	22-28
A	15-21
B.....	0-14

Cowboy

- (b) Targets: Hunter's Pistol, at distances of 40-50-75-100 meters.

3. Smallbore Cowboy Rifle Silhouette

- (a) Any lever action, pump, or semi-auto rimfire rifle with a tubular magazine. Only .22 long rifle ammunition is allowed. Hyper velocity ammunition is prohibited.
- (b) Targets: Smallbore Hunter's Pistol, at distances of 40-50-75-100 meters.

Some other items pertaining to Cowboy Lever Action Silhouette Rifles are listed below:

A. If using an interchangeable hooded front sight, the post may be placed in a vertical position so as to go from the bottom of the sight to center or from the top of the sight to center.

B. Corrective lenses are allowed only in the rear sight.

C. P.A.S.T.-type recoil shields are permitted in accordance with Rule 3.12(d).

4.2 Target Setting (Cowboy Lever Action Only) –

To ensure that full-size rams will be knocked down with reasonable loads, they should be set so that the center of gravity works through a plane intersecting the stands approximately 1¼" forward of the rear edge. This can be accomplished by experimentally moving the target to the rear until it topples, and then moving it forward 1". Stands can be designed to incorporate stops to facilitate setting the targets at the proper topple point. Pistol Cartridge Cowboy Lever Action and Smallbore Cowboy Rifle targets are to be set full-foot and flush with the backs of their stands.

AMMUNITION ALLOWED: Any appropriate ammunition as listed in Rule 3.1.3, which is not damaging to the targets may be used. Magnums, armor piercing, tracer and incendiary ammunitions are prohibited. The Match Director may prohibit the use of ammunition that proves damaging to the

targets. In accordance with Rule 10.7 of the 2013 NRA Rules, only five (5) rounds of loose ammunition will be placed on the shooting stand for each series.

RIFLE POSITION DURING TARGET SETTING:

NRA Whittington Center requires NO rifles may be pointed down range when any personnel, including target setters, are visible in front of the firing line. Rifles will be in a vertical position with the Empty Chamber Indicator (ECI) inserted in the chamber, either in the notch on the firing point tray or with the spotter or competitor holding the rifle with the muzzle pointed up.

TARGET COLOR: Targets for the Cowboy Lever Action, Pistol Cartridge and Smallbore Rifle Championships will be painted black.

COWBOY LEVER ACTION FIRING PROCEDURE:

The Long Range Pistol range, on which the Cowboy Lever Action event is fired, is arranged in such a fashion that the normal sequence of fire: Chicken – Pig – Turkey – Ram, requires an excess of movement to complete the CLA event. Therefore, a different order will be used to shorten the movement to fire the complete event. Competitors will shoot either CHICKEN/TURKEY or PIG/RAM in the AM and then shoot either PIG/RAM or CHICKEN/TURKEY in the PM to complete the course.

FIRING LINE: The Hunter's Pistol Range used for Pistol Cartridge and for Smallbore has a covered firing line. The Long Range Pistol Range used for Cowboy Lever Action, has a covered firing line.

COMPETITORS MEETING: There will be competitors meeting on Monday, July 1, 2013, at the conclusion of the awards ceremony. The meeting will be held on the Range and will provide opportunities to discuss competition programs and rules with members of the NRA Silhouette Committee. All competitors are invited to attend.

PRACTICE: The NRA Whittington Center is open seven days a week for practice. If you are not a Whittington Center Gun Club member, there is a range fee of \$20.00 per day. The match entry fee includes one free practice day prior to the start of the match. Whittington Center Gun Club members can use the ranges for free. Whittington Center Gun Club membership is \$30.00 per year. Fees for shooting before a Championship shall be paid to the Center gatekeeper. During the Championship, the range will be open for practice from daybreak until one hour before the match and after the match until dark. Range fees for the Championship days are included in the match fees. Shooters will be expected to set targets during practice hours.

MEALS: There will be meal and beverage service available at the range and in the center cafeteria during the Championship. All three meals are planned for each day.
