Item # NRACS-03

SAFETY IS SHOOTINGS MOST IMPORTANT RULE

These Rules provide for the efficient and orderly operation of a tournament. But *that's not all*. Many local range regulations exist for one reason alone – SAFETY. Others serve a dual purpose, smooth range operation and SAFETY.

It's your responsibility as a competitor or as a tournament official to be familiar with the Rules and to know the meaning behind those which are safety oriented.

The fundamental NRA rules for safe gun handling are:

- Always keep the gun pointed in a safe direction.
- Always keep your finger off the trigger until ready to shoot.
- Always keep the gun unloaded until ready to use.

When using or storing a gun, always follow these NRA rules:

- Be sure the gun is safe to operate.
- Know how to safely use the gun.
- Use only the correct ammunition for your gun.
- Know your target and what is beyond.
- Wear eye and ear protection as appropriate.
- Never use alcohol or drugs before or while shooting.
- Store guns so they are not accessible to unauthorized persons.

Be aware that certain types of guns and many shooting activities require additional safety precautions.

To learn more about gun safety, enroll in an NRA safety training or basic marksmanship course, NRA hunter clinic or state hunter education class.

OFFICIAL RULES FOR

ACTION PISTOL MATCHES

These Rules establish uniform standards for NRA Sanctioned Action Pistol Shooting competition. Where alternatives are shown, the least restrictive conditions apply unless the tournament program sets forth limitations. They apply only to Action Pistol Shooting type competition. These Rules supersede all previous editions and will remain in effect until specifically superseded.

Tournament sponsors may not alter these Rules. If sponsors require additional rules or special conditions, the additions must be fully set forth in the program for the competition concerned.

The arrangement and rule numbering systems are such that corresponding Rules for other types of NRA competition are correspondingly located and numbered in the Rule Books for those competitions. Gaps in the sequence of rule numbers result from there being a Rule in one or more of the other Rule Books which does not apply in this book.

Anyone wishing to submit recommendations for Rules changes may forward those recommendations to the Action Shooting Committee in care of the National Rifle Association.

NOTE: Rules in which major changes have been made since publication of the previous Rule book are marked thus (• 1.1).

1. NRA COMPETITION

Such matches may be all individual matches, all team matches, or a combination of both, which must be conducted by an NRA Affiliated Club or organization. They may be all fired matches or a combination of fired and aggregate matches. A tournament may be conducted on one day, or successive days, or may provide for intervening days between portions of the tournament, such as tournaments programmed to be conducted over more than one weekend.

1.2 Authorization – Before being publicized in programs or otherwise, the sponsoring organization of each type of competition mentioned in Rule 1.7 shall have agreed to comply with the current regulations for such competition and shall have received notice from the NRA that the competition applied for has been authorized.

1.3 Rules – The local sponsor of each type of competition must agree to conduct the authorized competition according to NRA Rules, except as these Rules have been modified by the NRA in the General Regulations for that type of competition.

1.4 General Regulations – The local sponsor of each type of competition must agree to comply with the General Regulations published by the NRA for the competition concerned. See Appendix pg 68 this Rule Book.

In states where there is no NRA affiliated State Association the NRA may authorize a local organization to sponsor and conduct the State Championship. 3.18 General-All devices or equipment which may facilitate shooting, and which is not mentioned in these Rules, or which is contrary to the spirit of these Rules and Regulations, are forbidden. The Match Director, Official Referee, Jury Chairman or Supervisor shall have the right to examine a shooter's equipment or apparel. The responsibility shall be upon the competitor to submit questionable equipment and apparel for official inspection and approval in sufficient time prior to the beginning of a match so that it will not inconvenience either the competitor or the official.

3.18.1 All Equipment Must Be Safe and Serviceable-All equipment used in the Tournament, including handguns, holsters and ammunition, must be safe and serviceable. No modified equipment may be used if it could compromise the safety and reliability of such equipment. Modified firearms, holsters and ammunition could be hazardous to the competitor, his/her fellow competitors and bystanders; equipment should be of proven reliability and safety.

3.18.2 All original manufacturers safety devices must function as designed.

3.19 Eye Protection-Safety eye glasses may be worn at the competitors' option. However, their use is highly recommended. Hosting clubs may require eye protection.

3.20 Ear Protection-All competitors and other personnel in the immediate vicinity of the firing lines are urged to wear ear plugs, ear muffs or similar ear protection. Match sponsors (and /or ranges) may require ear protection.

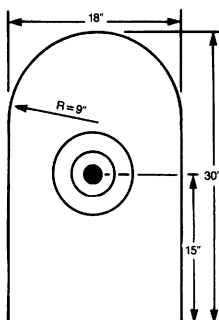

4. TARGETS

4.1 Official Targets – In NRA Sanctioned competition, only targets printed by NRA Licensed Manufacturers, bearing the Official Competition target seal will be used. Use of an additional aiming mark or marking is prohibited.

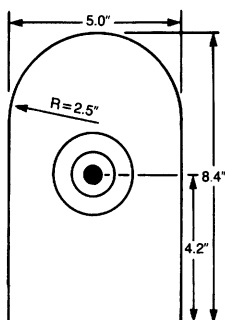

OFFICIAL TARGET DIMENSIONS

4.2 Precision Target Events – NRA AP-1 (paper or cardboard). The target will be of the configuration and dimensions described in Fig. 1. Targets may be made of paper or cardboard. All scoring lines will be of low visibility. (Refer to Sec.14 for scoring procedures) The cardboard

4.2.1 NRA AP – 2 Target—The AP-2 Target is a reduction of the AP-1 Target and is used for firing the precision target events (25 yard, 25 meter, 35 yard, and 50 yard stages) where there is a maximum shooting distance of 50 feet. The target will be of the configuration and dimensions described in Fig. 2 (Refer to Sec. 14 for scoring procedures)

4.3 Falling Plate Target – The target will be a series of 8" diameter round targets, made from .375 (3/8) inch-thick steel. The target must be knocked down to score as a hit. (Refer to Sec. 14 for scoring procedure).

4.3.1 Alternate Falling Plate Target – The target will be an 8" diameter round target, made from 3/8 or 1/2 inch thick Elastimax or similar self-sealing plastic material. The target must be knocked down to score as a hit.

4.3.2 Alternate Falling Plate Target Rimfire – The target will be an 8" diameter round target, made from 1/4" thick steel. The target must be knocked down to score as a hit. See Section 14 for scoring procedure.

4.4 Speed Target – The target shall be made from .375 (3/8) inch-thick steel, painted white, and of the dimensions described in Fig. 3. (Refer to Sec. 14 for scoring procedures)

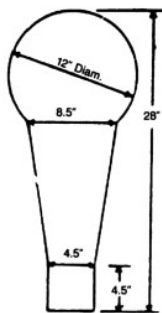

Fig. 3 – Speed Target.

4.5 Combat Target – The NRA B-18 Target is used for the combat event. The top edge of the scoring area begins at the upper midpoint in the 6 ring and ends at the lower midpoint of the 6 ring at the bottom of the target. It is divided into 5 scoring zones, (hits outside the 6 ring are scored as misses). The 10 ring is formed by two vertical lines 5 cm long, 10 cm apart and joined at the top and bottom by semicircles with 5 cm radius. The 10 ring is therefore

10 cm wide and 15 cm high. The 9 through 6 rings are similarly shaped with their widths successively increased by 10 cm (5 cm on each side) and their heights by 15 cm (7.5 cm at the top and bottom). The center of the 10 ring must be 37.5 cm from the top of the target. The 10 ring is not numbered. See Fig. 4. The B-24 target is used for firing at 50 feet. (Refer to Sec. 14 for scoring procedures.)

5. POSITIONS

5.1 The Ground – All references to “the ground” in the following position Rules are to be construed as applying to surface of the firing point, floor, and such shooting platforms as are customarily used on shooting ranges.

5.2 Artificial Support – Artificial support is defined as follows:

- (a) Any supporting surfaces, except the ground, not specifically authorized for use in the rules for the position prescribed.
- (b) Any garment, including gloves, which can be interpreted as providing artificial support.
- (c) Other devices which can be interpreted as artificial support. (See Rule 3.18).

Use of artificial support is prohibited except as individually authorized for a physically handicapped shooter. (See Rule 5.5).

5.3 “Ready (Starting) Position” – “Poised Ready” designates a position in which the pistol is holstered and safe, and neither hand touches the pistol, holster, belt, spare magazine, or spare ammunition. If not specified in other sections of this Rule Book or in Tournament Program, the ready position shall be with competitor standing upright and hands held shoulder high. Other ready positions must be designated in the match description or program. Once the ready position is assumed, it may not be changed before the firing signal. Any such change, including the gradual motion of the hand toward the pistol (termed “creeping”) is considered a procedural error, and is to be penalized accordingly.

It is the responsibility of the competitor to assume the correct ready position”.

5.4 – 5.11 (Blank)

5.12 Firing Position – Generally, there shall be no restrictions placed upon the stance, position, or technique adopted by any competitor, unless a sponsor wishes to use a given position(s) and specifically states so in the tournament program. Simulation of a shooting situation for a course of fire is not considered to be such a restriction. When firing from the prone position, the competitor’s arms and pistol may be supported by the ground, or by a cover placed upon the ground, but no rearrangement of the ground for support will be allowed. No portion of the shooter’s body may rest upon or touch the ground in advance of the firing line.

6. RANGE STANDARDS

6.1 Firing Line—The range for pistol competitions shall have a firing line. The shooting distances shall be measured from the face of the competition target to the firing line (that point beyond which no part of the competitor's body may touch the ground). Such line will be clearly marked.

6.2 Firing Point — That part of the range provided for the competitor from which firing takes place. The firing points shall be so constructed that they do not obstruct or disturb the competitor's shooting or obstruct the activities of the Range Officers.

6.3 (Blank)

6.4 Distance—The shooting distances must be strictly adhered to. At Registered competitions outdoors the distances required are 7, 10, 15, 25, 35, and 50 yards or meters. Competition fired indoors requiring the AP-1 target will be fired at distances of 7, 10, and 15 yards. Indoor competition requiring the AP-2 target will be fired at distances of 25, 35, and 50 feet. (See Section 10.)

6.5 Illumination—Artificial Illumination of ranges is authorized.

6.6 (Blank)

6.6.1 Multiple Target Set — Up Procedure—Multiple set-ups for allowing more than one competitor at a time to fire a match must, if the range exceeds twenty-seven and one-half yards, have each competitor's target or target group distinguished by a unique number clearly visible from the firing line.

6.7-6.8.1 (Blank)

6.8.2 Target Equipment — Any target system is permitted so long as it guarantees the:

- (a) Necessary degree of safety and the accurate and rapid scoring of the shot-holes on the competition targets.
- (b) In case of automatic target carriers or changers being used, the competitor may control the changing of his own targets, or the competitor may leave this to the scorer.

6.9 – 6.11 (Blank)

6.12 Spectator Area — There may be space provided for the spectators. The spectator area must be separated from the competitors and officials by a suitable barrier.

The competitor must remain within the firing square for the complete firing sequence. The starting position will be with the handgun holstered and both hands held shoulder high. There will be no audible signals. When the competitor is ready to fire both hands must be raised to the starting position. The appearance of the target from behind the barricade will be the signal to commence fire. There will be a mandatory reload after each 6-rounds fired. A competitor has 5 minutes to complete firing this course, starting from entry into the first shooting box until the start of the last string of fire.

10 yards: At the signal to commence fire, the competitor fires 6 rounds at the target, which moves from right to left. The target will pause for 3 seconds and then move from left to right while the competitor fires 6 rounds at the target. 8. TIME LIMITS (BLANK)

9. COMPETITION REGULATIONS

9.1 Changing Equipment – The same equipment, including firearm, optical or electrical sights, holster, and ammunition will be used to fire all matches in the same tournament. Magazines used must be the same capacity, dimension, and design in all stages of all matches in the same tournament. Should a handgun become unserviceable, it may be exchanged for another of similar make, model, barrel length, and caliber and with similar make and model of optical or electronic sights as on the original, with the approval of the Match Director. The same restrictions on exchanges will apply to holsters and ammunition. If the substitution is approved, the competitor will accept the score fired up to the point of breakage; no refires will be made.

9.2 – 9.4 (Blank)

9.5 Disabled Handgun – Any handgun which cannot be safely aimed or fired, or has suffered the loss of a sight or damage to the sights rendering it impossible to properly aim at target or cannot be

fired because of mechanical failure. There must be evidence of physical damage to sights; the fact that sights are improperly adjusted does not constitute disablement. Optical sight failure will not be accepted as an excuse for a refire. A handgun once declared disabled shall not again be used for competitive firing until the defect has been corrected and until the handgun has been ruled as safe by the Jury/Referee. (See Rule 9.1 for procedure.)

9.6 – 9.7 (Blank)

9.8 Equipment Inspection – Novice competitors must submit to mandatory equipment and match procedure check by the hosting club. It is the responsibility of the Match Director to carry out this requirement. (Refer to Section 3 for definitions of authorized equipment.)

9.9 Weighing Triggers—Triggers may be weighed with official NRA trigger test weights at the discretion of the Match Director, Official Referee, Jury or Supervisor. Triggers of pistols used in establishing National Records shall be weighed by a tournament official immediately after the firing of such record score and must meet the specifications of Section 3 for the pistol prescribed by the tournament program. Failure of the trigger to meet the trigger pull requirements shall disqualify the competitor in matches previously fired. The rod or hook of test weight shall rest on lowest point of the curve in curved triggers, and approximately midpoint on straight triggers.

While trigger pull is being weighed, the pistol shall be held with the barrel perpendicular to the horizontal surface on which test weight is supported. The rod or hook of test weight shall rest on lowest point of the curve in curved triggers, or on a point approximately one quarter of an inch from lower end of straight triggers. To pass the weight test, a weight of the correct number of pounds shall be lifted by the pistol trigger while in the cocked position and while all safety devices are in firing position from the horizontal surface on which it is resting, until the weight hangs free and without releasing the trigger. Magazine must be removed, and pistols unloaded while trigger is being weighed. Pistols equipped with a device to prevent firing while magazine is out must be closely inspected to see that no cartridges are in a magazine or chamber. Magazine will then be inserted, and trigger pull weighed.

Competitors will be permitted to adjust triggers which have failed to pass the weight test provided they do not occasion any delay. Failure of trigger to pass the weight test is the competitor's responsibility.

9.10 Coaching Prohibited in Individual Matches – Coaching is prohibited in all individual matches of an NRA Approved or Registered Tournament.

9.11 Matches Not Complete – When a match or stage is not completed by all competitors in accordance with the tournament schedule, the match or stage may be rescheduled or canceled. Any match or stage which has been completed by all competitors will not be refired. Only scores of a match or stage which has been completed will be included in an aggregate event or for National record purposes, and a match or stage is not completed unless all competitors have fired.

9.12 (Blank)

9.13 Interference – With the exception of competitors actually firing and such range personnel, the firing points and line will be kept clear at all times. Loud or disturbing noise or talk is not permitted near the shooting stations. Range officials, jury members, team officials, and competitors shall limit their conversation to official business when they are near the competitors. The Range Officer shall also ensure that the noise of the spectators is kept at a minimum level.

9.14 Refiring – No refires will be allowed for defective guns or ammunition or for other malfunction of the shooter's equipment. A competitor may clear jams or malfunctions and replace the necessary cartridge(s) that have misfired or have been dropped, provided all safety requirements are met. Completing a string of fire in this manner will not constitute a refire. No additional time will be allowed.

- (a) When the firing of a string is interrupted by some occurrence which renders it impossible for one or more competitors to complete the string under the conditions of the match, the Chief Range Officer will proceed as follows: Without being permitted to examine their targets, competitors in the relay who have been so prevented from completing their strings will be asked if they wish to refire or to accept their score as fired. Targets will then be scored in the usual manner for all competitors except those who have elected to refire. Without being scored, the targets of such competitors who have elected to refire will be pasted or new targets substituted, and a complete string will be fired and scored. Reasons authorizing this procedure are:
 - (1) failure to allow full time, (2) failure of targets to operate properly or uniformly for the entire string, (3) failure of paper target to remain in position on frame, (4) damage to target rendering impossible proper aiming or scoring, (5) the appearance of some object in line of fire constituting a hazard, (6) some accident involving a Range Officer or competitor on the firing line, (7) if due to faulty target operation or error in timing, one or more competitors are allowed more time to complete the string than provided by conditions of the match. The Chief Range Officer will immediately order all such targets required pasted, or new targets installed. The fired targets will not be scored. A complete new string will then be fired by the competitors who were allowed extra time. If in the same relay some targets operate properly in accordance with the legal time limit, such targets will be scored in the usual manner and competitors firing on those targets will not be required or permitted to refire.
- (b) In the case of some accident involving a competitor on the firing line, such as being hit by lead or powder residue, that competitor must stop firing immediately. Any shots fired will be counted. The entire stage in which the incident occurred must be refired on the same target. The highest scoring shots, which constitute the complete string, will determine the competitor's score for that stage.

9.15 Standard Safety Rules Shall be Strictly Enforced – Hosting organizations will be expected to devise and enforce safety rules to cover unusual situations. Any safety rules devised for a match shall be clearly explained to all competitors, along with any penalty, before the match begins. These rules shall also appear in the match descriptions as printed in the program.

9.16 Unsafe and Incompetent Gun Handling – Unsafe and incompetent gun handling during a course of fire will result in immediate disqualification. The match official may stop the competitor during a string of fire.

9.17 Safety Violations – An accumulation of two safety violations in a tournament requires an automatic disqualification. Safety violations will include, but not necessarily be limited to, the following:

- (a) Pointing an unloaded handgun up range.

- (b) Dropping of an unloaded handgun.
- (c) Leaving the firing area with a loaded handgun.
- (d) Moving on a course of fire in breach of Regulation.
- (e) Picking up a dropped handgun, except under the direction of a Tournament Official.
- (f) Any accidental discharge. This does not include rounds fired overtime but does include discharges while loading or clearing a handgun.

9.17.1 Disqualification Violations – The commission of a disqualification violation in any match requires automatic disqualification. Disqualification violations will include, but not necessarily be limited to, the following:

- (a) Pointing a loaded pistol up range.
- (b) Dropping of a loaded pistol.
- (c) Any shot in the holster, or into the ground less than six feet down-range from the firing line, into the air, or which strikes a wall or ceiling.
- (d) The consumption of alcohol or drugs while competing in a match.

9.17.2 Disqualified from Entire Tournament – A competitor disqualified under Rules 9.17 and 9.17.1 shall be disqualified from that entire tournament, and not merely from the sub match or stage in which the violation occurred. He/she shall be considered as having completed that tournament but shall be placed at the bottom of the list of finishing competitors for purposes of ranking.

9.18 Electric Timing Device – Officials may not override the reading of an electric timing device. If such a device becomes manifestly unreliable in the opinion of the Match Director, its use shall cease at that point. If this occurs, the match shall be continued using back-up timing, but the scores or positions obtained prior to withdrawal of the timer shall stand.

9.19 Detachable Shoulder Stocks – Detachable shoulder stocks are not permitted.

9.20 – 9.22 (Blank)

9.23 Aliases – No competitor may fire under an assumed name nor substitute for another in a match; register, enter or fire in the name of another.

10. RANGE COMMANDS, CONTROL AND OPERATIONS

10.1 Discipline – The safety of competitors, range personnel and spectators require continuous attention by all to the careful handling of firearms and caution in moving about the range. Self-discipline is necessary on the part of all. Where such self-discipline is lacking it is the duty of the range personnel to enforce discipline and the duty of competitors to assist in such enforcement. Under no circumstances shall firing commence or continue on a range where an unsafe condition exists.

10.1.2 (Blank)

10.1.3 Loaded Pistols – Pistols will not be loaded except as directed by Tournament Officials. “Loaded” indicates a firearm with a cartridge in the cylinder or chamber or with a magazine in place.

10.1.4 Cease Firing – Is the command given at the end of the time limit for each string, or stage, or at any other time all firing is to cease. Firing must cease immediately. Even if a competitor is about to let off a carefully aimed shot the competitor must not fire and open the action of the gun. Failure to immediately obey this command is one of the worst infractions of range discipline. “Cease firing” may be signaled verbally, by a short sharp blast on a whistle, or by moving the targets out of view. When the command to cease firing is given at the end of a string or stage the command is “CEASE FIRING-UNLOAD AND SHOW CLEAR.” On this command all RANGE Officers check their competitors to make sure each one obeys the command before signaling the person giving the commands that their portion of the firing line is clear. When all RANGE Officers have given the signal that the range

is safe, the necessary commands to move from the line or to score and properly handle targets are given.

10.1.5 – 10.1.7 (Blank)

10.1.8 Pistol Muzzle Direction – During loading and unloading and during remedial action in the event of a malfunction, the muzzle of the pistol must be directed downrange.

10.1.9 Pistol Malfunction Procedure – In the event a pistol cannot be unloaded due to a broken or failed mechanism; the competitor will notify a Tournament Official who will take such action as he/she thinks best and safest. In no case will a competitor leave the firing area with a loaded pistol in his possession.

10.1.10 Handling Handguns – During a match, competitors not firing will refrain from handling their pistols except in designated areas. The normal condition of pistols not actually engaged is holstered and unloaded, with hammer fully down and, for auto pistols, with magazine removed.

10.1.11 Safe Handgun Condition – A competitor must begin each string of fire with his/her handgun in a safe condition, specified as:

- (a) Single-action revolvers must have the hammer fully down on an empty chamber, unless equipped with a transfer bar.
- (b) Double-action revolvers must have the hammer fully down, and not in the halfcocked position.
- (c) Auto pistols must have the hammer fully down or fully cocked with the thumb safety on safe, never halfcocked. Double-action autos may not be fully cocked if their safety mechanism drops the hammer when actuated.

10.1.12 Position of Handguns When Moving Between Firing Positions – On courses requiring the competitor to move between firing positions, handguns must be in a safe condition during movement. Fingers must be outside the trigger guard. The handgun shall always be pointed downrange.

10.1.13 Clearing of Stoppages and Reloading – For the purpose of safety, when firing stages which require that firing be done with the strong hand only or weak hand only, clearing of stoppages and reloading the handgun may be done freestyle without penalty to score. However, care should be taken to handle the handgun safely when clearing or reloading.

10.1.14 Dropped Handgun – A competitor may not pick up a dropped handgun except under the direction of a Tournament Official.

10.2 Loud Language – Loud or abusive language will not be permitted.

10.3 Delaying a Match – No competitor may delay the start of a match through tardiness in reporting or undue delay in preparing to fire. (See Rule 18.7.)

10.4 Policing Range – It is the duty of competitors to police the firing points when directed by the Range Officer.

10.5 Competitors Will Score – Competitors will act as scorers when requested to do so by the Match Director or Chief Range Officer, except that no competitor will score his/her own target.

10.6 Repeating Commands – A Range Officer will repeat the Chief Range Officer’s commands only when those commands cannot be clearly heard by competitors under his/her supervision.

10.7 Firing Line Procedures and Commands – When the competitor takes position at the firing line, the Range Officer gives the command “Load and Make Ready”, upon which the competitor loads his/her firearm and prepares his/her equipment for the match. When ready to start the firing of the match, the Range Officer commands, “Ready”. On affirmative indication by the competitor, usually signaled by placing the hands in the position required, the Range Officer says, “Stand By”; then the official renders the “Fire” command via audio, visual, or other means as called for in the stage outline. Upon completion of firing, the Range Officer commands, “Cease Firing – Unload and Show Clear”, and follows the procedures outlined in rule 10.1.4.

10.7.1 Match Equipment Failure Procedure – At any time, should the match equipment fail, thus not giving the competitor a fair opportunity to obtain his/her due score, and then the competitor shall be given the opportunity to refire that string in which the equipment failed. If a back-up time is available, the competitor, before being notified of his/her score or back-up time shall be given the option of either accepting his/her current score with the back-up time or re-running the string.

10.7.2 Failure of Match Equipment or Administration – In the case of failure of match equipment or administration, the competitor may choose to refire the stage, but he/she must not be allowed to check his score before making his/her decision. The match officials are responsible for carrying out this procedure.

10.7.3 Improper Range Commands – If the Range Officer’s commands and/or actions have been made incorrectly, or if there has been a misunderstanding so that the competitor is not ready to fire when the command or signal to fire is given or when the targets appear, he/she may elect not to fire and immediately after the series report the matter to the Range Officer or Jury member.

- (a) If the claim is considered justified, the competitor will be allowed to fire the series.
- (b) If the claim is considered not justified, the competitor may not fire the series and will receive a “Did not finish” designation as his score.
- (c) If the competitor has fired the first shot in the series, a protest of this nature will not be accepted as justified.

- (c) Have team members report at proper firing points at the right time with approved equipment and attire, ready to fire.
- (d) Check scores, and make challenges and protests.

- (e) Check preliminary and official bulletins and official announcements.

12.2 Coaching –

- (a) All types of coaching, giving of advice, sympathy, encouragements, etc. is forbidden. For as long as the competitor is on the firing line he/she may speak only with members of the jury or with range officers.
- (b) If a team leader wishes to inform a shooter on the firing line of something which does not relate to the competition or “coaching,” he/she must first obtain the permission of a member of the jury or referee.

12.3 (Blank)

12.4 Substitution of Alternates – If alternates are allowed and have been named on the entry form, the Team Captain may substitute an alternate for a firing member at any time before the firing member concerned has fired his first shot of the match (sighting or record), notifying the Scorer and a Range Officer accordingly.

12.5 – 12.7 (Blank)

13. PHYSICALLY DISABLED SHOOTERS

13.1 Physically Disabled Shooters – AA shooter who because of physical disability cannot fire from one or more of the prescribed shooting positions outlined in these Rules, or who must use special equipment when firing, is privileged to petition the NRA Protest Committee for permission to assume a special position or to use modified equipment, or both. The petition shall consist of a form provided by the NRA and shall specify in detail the reasons why the special position must be assumed or the special equipment must be used. The petition will be accompanied by pictures of the shooter in the position he desires approved and, if special equipment is required, the picture will show how this equipment is used. The petition and all pictures must be furnished in exact duplicate. The petition must be accompanied by a medical doctor’s statement if the physical disability is not completely evident in the pictures submitted.

- (a) Each petition will be reviewed by the NRA Protest Committee. The Committee may require additional or supplementary statements, medical information, or pictures. If approved, the NRA Secretary will issue a special authorization certificate to individuals concerned. Such certificates will have necessary pictures attached.
- (b) Competitors who have received special authorization certificates will be required to carry them when competing in competition governed by NRA Rules, and to present the certificate when requested by officials of the competition or by NRA Official Referees or Supervisors.
- (c) In the event of a protest involving the position or the equipment used by such a competitor, the Official Referee or Supervisor will compare the questioned position or equipment with the certificate and photographs presented by the competitor. If the competitor’s position or equipment does not, in the opinion of the official, conform to that authorized by the NRA Protest Committee (or if the competitor has no authorized certificate or pictures), the protest shall be allowed and the competitor

will be required to change immediately to the position or equipment which has been approved or to an otherwise legal position or equipment.

- (d) Should a protest be carried beyond the Official Referee or Supervisor, the original protest will be endorsed by the Referee or Supervisor to show the action he has taken and will be forwarded to the National Rifle Association.
- (e) National Records may not be established by use of scores fired in special positions or with special equipment as may be authorized according to this Rule.
- (f) Two types of authorizations are issued: temporary and permanent. Permanent authorizations are issued to competitors who are permanently disabled.

13.2 Temporary Disability-Substitute Positions-Any person who has a temporary physical disability, as substantiated by a current written medical opinion, which prevents him from using a specified position as defined in this rule, may assume the next more difficult position in lieu of that position. In this manner, sitting may be used for prone, kneeling may be used for sitting, and standing may be used for kneeling. Any substitute position must conform to the rule which defines it. The Match Director must be informed of the substitute and may require that the substitute position be demonstrated so he may be certain that it meets the definition of the appropriate rule.

14. SCORING AND MARKING

14.1 When to Score – Targets are scored at completion of each stage or match as indicated by tournament sponsors.

14.1.1 Maximum Hits Before Scoring – Targets shall not accumulate more than twelve hits before being scored and taped, except for those matches in which a single stage exceeds 12 rounds.

14.1.2 New Target Request – Upon request, a competitor will be given new targets (and where painted metal plates are used, fresh paint) only at the beginning of his string.

14.1.3 Touching Target before Scoring – If a competitor is observed touching his/her target prior to scoring, and if the scorer feels the target has been altered, the entire target, regardless of the number of hits on it, shall be scored zero.

14.1.4 Interference with Targets – Competitors will not be permitted to interfere with the handling of targets by range personnel. No competitor shall touch his/her own target after it has been fired until final score determination on the target has been made. Final score determination is not reached until all challenges have been settled.

14.2 Where to Score – Targets may be scored on the target frames, behind the firing line, or in the Statistical Office. The scorer must be at the target when scoring.

14.3 How to Score – A shot hole which comes in contact with the outside of the bull's-eye or scoring rings of a target, is given the higher value. A scoring gauge will be used to determine the value of close shots. The higher value will be allowed in those cases where the flange on the gauge touches the scoring ring. No scoring gauge will be used unless the diameter of the scoring flange is within these limits:

.22 caliber, .2225" – .2240"	.38 caliber, .355" – .359"
9 mm, .355" – .359"	.44 caliber, .426" – .430"
10mm/.40, .397" – .401"	.45 caliber, .450" – .454"

- (a) On the AP-1 paper targets, a shot-hole must touch the solid border line in order to count for score.
- (b) In events where the 8" steel plate is used, the plate must be knocked down to score as a hit; each hit is scored 10 points and 1 X.
- (c) In events where the Speed Target is used, all targets except the stop-plate must be knocked down to score. Since this is a timed event, no numerical score is assigned to each target, however penalties are assessed for targets left standing. (Rule 10.27)
- (d) In case of keyholed or tipped shots, the higher value is awarded if the bullet hole touches the scoring ring of higher value even though the hole is elongated to the bullet's length rather than being a circle of the bullet's diameter.
- (e) Shots fired while the target is in motion will not be scored as hits unless the greatest horizontal dimension of the bullet hole measures not more than one and one-half (1 1/2) times the diameter of the bullet. This Rule will not apply in the Moving Target Events.
- (f) When a bullet enters a target from the back side it will be scored a miss.
- (g) Where scoring paper targets with X's and penalties are assessed, that the penalties shall start with the X's. A penalty so assessed shall result in reducing the score by 10 points and 1 X per penalty accrued.
- (h) In matches where falling targets are used, only those targets hit within the authorized time limits are scored. Penalties will be assessed for procedural errors or for each round fired over the designated number. Examples-Seven shots fired, 6 plates hit within the time limit, the resulting score would be: 60-6x minus 10 points -1x penalty = 50-5x; six shots fired, the sixth shot is late, all 6 plates hit, the score is: 60-6x minus 10-1x penalty = 50-5x; six shots fired, the sixth shot is late, the last plate is missed, the score is: 50-5x (no additional penalty assessed).

14.3.1 Scorers Duties –

- (a) When targets are scored before removal from the frame the scorer records the value of each hit on score card while holding the card in such position that competitor may see score being recorded. While marking score on card the Scorer announces each hit value in an audible tone of voice. Example: "Target Number 2, 2 10s, 2 8's, and one 5." It is the duty of each competitor to watch the marking of his score and to challenge such scoring immediately if he believes scoring to be incorrect. After each target is scored shot holes are pasted or target is changed.
- (b) When targets are scored after removal from target frames, they are removed by target detail on the command, "Change Targets" and given to the Statistical Office for official scoring.

14.3.2 Authorized Use of Plug Type Scoring Gauges – The use of the plug-type gauge will be restricted to use by range operating

personnel who may include the Range Officer or Block Officers, Match Supervisors, Statistical Director, Match Director, Jury, or Referee, as appropriate to the type of tournament concerned. The tournament program should state in match conditions by whom and under what circumstances plug-type scoring gauges may be used. Competitors may not use scoring gauges or aids.

14.3.3 Target Scoring – Targets may be scored and changed as determined by the tournament sponsor and specified in the program provided NRA Rules are not violated. After firing the required number of strings or shots, upon command of the Range Officer competitors may go forward and examine their targets but may not handle or touch them.

- (a) When targets are scored before removal from the frame, the scorer records the hits, has the score accepted by the competitor, or the challenge process is completed. Each target is then repaired or replaced by a new target.
- (b) When targets are scored after removal from target frames they are removed by the target detail or the scorer (if a target detail is not provided) on the command “Change Targets” and delivered to the Statistical Office for official scoring or delivered by the scorer to the designated location where scoring is being carried out.
- (c) Targets intentionally altered or marked to benefit a shooter over another competitor will not be scored.

14.3.4 Simultaneous Hits or No Shots Fired Procedures – In person-against-person bouts, simultaneous hits shall count as a draw. If correct action is taken but no shots are fired, neither competitor shall score a point, but the bout shall resume as if no action had taken place.

14.4 – 14.6 (Blank)

14.7 Hits on Wrong Target – Hits on the wrong target are scored as misses.

14.8 Ricochets – A hole made by a ricochet bullet do not count as a hit and will be scored as a miss. It must be noted that a bullet which keyholes is not necessarily a ricochet.

14.9 Visible Hits and Close Groups – As a general rule only those hits which are visible will be scored. An exception will be made in the case where the groupings of three or more shots is so close that it is possible for a required shot or shots to have gone through the enlarged hole without leaving a mark and there has been no evidence that a shot or shots have gone elsewhere than through the assigned target. In such case, the shooter will be given the benefit of the doubt and scored hits for non-visible shots, on the assumption they passed through the enlarged hole. If such assumption should place a non-visible hit in either of 2 scoring rings, it shall be scored in the higher-valued ring.

14.10 Excessive Hits – If more than the required number of hits appear on the target, any shot which can be identified by the bullet hole as having been fired by some competitor other than the competitor assigned to that target, or as having been fired in a previous string, those shots will be disregarded and will not be scored. If more than the required number of hits remains on the target a complete new score may be fired and the original score will be disregarded, except:

- (a) If all hits are of equal value, the score will be recorded as the required number of hits of that value.
- (b) If the competitor wishes to accept a score equal to the required number of hits of lowest value, he/she shall be allowed to do so.

- (c) If a competitor fires fewer than the prescribed number of shots through his/her own fault, and there should be more hits on the target than the shots fired, he/she will be scored the number of shots of highest value equal to the number he/she fired, and will be given a miss for each unfired cartridge.
- (d) If a competitor, through his mistake, fires more than the required number of shots, he will be scored the required number of hits of lowest value.
- (e) A competitor who fires more than the required amount of shots allowed in Comstock and Chapman timed events will have the required number of shots of highest value scored.
- (f) If the competitor refires, the original target with excessive hits shall be retained by the scorer, and on refiring, the competitor may not receive a score higher than the required number of hits of highest value on the original target. If the score on the refired target is higher than the required number of hits of highest value on the original target, then the original target shall be scored using the appropriate hits of highest value; but if the score on the refired target is not higher, then such refired score will be recorded.

14.11 – 14.14 (Blank)

14.14.1 Scorekeeping Responsibility – It shall be the responsibility of each competitor to keep account of his score along with the scorekeeper. If there is an error in the scorekeeper's final tally, it shall be the responsibility of the competitor to challenge the final results. Final scores must be posted at the match site with sufficient time for a competitor to check for any errors.

14.15 Score Cards-Score cards will be prepared by the Statistical Office and delivered to the Range Officers who will check the target assignments of each competitor as he/she reports to the firing point, then give the score card to the scorer. At the conclusion of each relay Range Officers will take up the score cards and deliver them to the Statistical Office.

14.16 Erasures on Score Cards-Erasures on score cards are not permitted. If correction is necessary, it must be made and initialed by the Scorer or Range Officer. To make correction, the Scorer or Range Officer draws a line, or lines, through the incorrect score and places the correct score above.

14.17 – 14.18 (Blank)

14.19 Comstock Count – Comstock Count shall be defined as follows: The numerical score is totaled, and from it is subtracted twice the maximum value of a hit for hits fewer than required by the string. This subtotal is then divided by the time and this is the score. If this is not the intended scoring system, then the term Comstock Count shall not be used. Terms such as score divided by time or score minus time or some such scoring system shall be defined. Scoring systems shall be clear, absolute and uniform and must always accompany the match instructions.

14.19.1 Ranking of Competitors – In any match, or portion thereof, where both:

- (a) Time intervals of other than uniform, specified, and fixed duration are used, and
- (b) Targets with scoring zones are used:

The ranking of competitors in this match, or portion thereof, will be determined by either

- (a) Some function of both time and target score, such as the Comstock count, or
- (b) Hits first, followed by some function of both time and target score to rank those having an equal number of hits.

15. DECISION OF TIES

NOTE: All ties (same numerical score) ranking Rules shall be applied in the order listed below.

15.1 Match – The term “Match” as used in this section refers to all individual, team, and aggregate matches.

15.2 Ties – In all paper (cardboard) target matches, ties will be ranked by applying the following steps in the order listed below:

- (a) By the greatest number of X’s over the course.
- (b) By the number of X’s at the longest distance or simulated longest distance.
- (c) By the number of X’s at the next longest distance or simulated longest distance, continuing through the course in inverse order.
- (d) If still tied, the tie will be broken by a shoot-off at the longest distance by firing two strings as called for by the course conditions.
- (e) If a tie still exists, the shoot-off continues at the longest distance with a reduction in time of one second per string until the tie is broken.
- (f) (f) Ties in Match X (aggregate) of the Bianchi Cup will be broken by using (a) through (e) of Rule 15.2 except in case of shoot-off the longest distance from each of the four main events will be used.

15.3 – 15.11 (Blank)

15.12 Breaking Ties in Falling Plate Event – When the event is completed with a score of 480-48X, the competitor shall repeat the complete event, starting at the 10-yard line, at time limits reduced by one (1) second per string per stage, until one plate is missed. The time limits shall be reduced by one (1) additional second each time the complete event is repeated. The number of plates knocked down until a plate is missed shall determine the “X” count and winner of the match. Ties with “X” count below 48 will be broken by applying the same steps outlined in 15.2.

15.13 Breaking Ties in Ambidextrous Match-Ties will be broken by repeating the 10-yard stage with 1 second per string reduced from time limit. If a tie still exists, competitors will remain at the 10-yard stage and continue firing with time limits reduced an additional 1 second per string until the tie is broken.

16. CHALLENGES AND PROTESTS

16.1 Challenges – When a competitor feels that a shot fired by himself or by another competitor has been improperly evaluated or scored, he may challenge the scoring. A minimum challenge fee of

\$1.00 with a maximum fee of \$25.00 may be charged to all competitors making challenge. The fee will be collected before making the first recheck of the challenged score. If the competitor's challenge is sustained at any point along the line of rechecks, the challenge fee will be returned to him. If the challenge is lost, the challenge fee will be included in the general revenue of the tournament. The decision of the Official Referee, Jury or Supervisor will be final.

- (a) Such a challenge must be within the challenge time (see Rule 11.6.3). It shall be the challenging competitor's privilege to inspect the target during or following the recheck except when targets are scored in the target pit. Decisions on the value of shot holes made by means of gauges are final and cannot be appealed. Appeals may only be made if the shot value has not been determined by means of a gauge, or in cases of wrong addition or inaccurate entries in the result list.
- (b) When targets are scored in Statistical Office or on display racks, the recheck will be made by the Chief Statistical Officer (provided he has not previously scored or checked the target) and the Official Referee. If the challenge concerns shots which were scored in the Target Control Office (Statistical Office), the challenge must be submitted in writing.
- (c) When targets are scored on frames and scoring of a shot is challenged, the Range Officer will immediately call the Official Referee or Supervisor who will score the target. If necessary to avoid delaying match the challenged target will be replaced with a clean target and the match will proceed. Official Referee or Supervisor will score the target as soon as possible and notify the competitor.
- (d) The first recheck of the challenged shot will be made by the Range Scorer. If a further recheck is required, it will be made by the Official Referee and, if necessary, the Chief Referee. If necessary, to avoid delaying the match, the challenged target will be replaced on the frame with a clean target and the match will proceed. The Official Referee in such cases will score the target as soon as possible and notify the competitor. If the competitor's challenge is sustained, the challenge fee will be returned to him immediately; otherwise, it is forfeited and turned into the Statistical Office. In no case will a challenge be permitted, nor the value of a hit be changed after the next shot has been fired.
- (e) The Match Director may at his discretion recheck any competitor's target by an administrative challenge. Such challenge must be made within the posted challenge period and checked by the Referee. For further information on the Statistical Office operation, see Rules 11.6 through 11.6.11 inclusive.

16.2 Protests – A competitor may formally protest:

- (a) Any injustice which he feels has been done him except the evaluation of a target, which he may challenge as outlined in Rule 16.1.
- (b) The conditions under which another competitor has been permitted to fire.
- (c) The equipment which another competitor has been permitted to use.

16.2.1 Authority of Protest Committees – National Championships protest committees or juries may be established at National

Championships to rule on protests arising from activities at those sites (See Rule 11.8). However, the decisions of these special protest committees or juries shall not contravene prior interpretations of the NRA Rules and/or precedents established by the NRA National Protest Committee.

16.3 How to Protest – A protest must be initiated immediately upon the occurrence of protested incident. Failure to comply with the following procedure will automatically void the protest:

- (a) State the complaint orally to the Chief Range (Chief Statistical) Officer. If not satisfied with his decision then,
- (b) State the complaint orally to the Official Referee, Jury Chairman or Supervisor. If not satisfied with his decision then,
- (c) File a formal protest in writing with the Official Referee, Jury Chairman or Supervisor stating all the facts in the case. Such written protest must be filed within 12 hours of the occurrence of the protested incident.
- (d) The Official Referee, Jury Chairman or Supervisor will then forward the protest with a complete statement of facts within 48 hours of receipt thereof to the Protest Committee at NRA Headquarters.

16.4 Challenges and Protests in Team Matches – Must be made by the Team Captain. Team members who believe they have reason to challenge or protest will state the facts to their Team Captain who will make the official challenge or protest if he feels such action is justified.

17. NATIONAL RECORDS

NRA National Records shall be established only by competitors who are NRA members or junior members of NRA affiliated clubs. National Records can only be established in the United States.

National records may be established only when competition exist, i.e., more than one competitor or team in an event.

17.1 Where Scores for National Records Can Be Fired – Scores to be recognized for National Records must be fired in NRA Registered Competition as defined in Rule 1.6, paragraphs (c), (d), (e), and (f). National Records must be approved by the NRA before being declared official. National Records may not be established during reentry matches.

17.2 Scores to be used—Scores must be complete scores for an entire scheduled match. Stage scores or scores for only part of a match will not be used for National Records.

17.3 Scores for National Individual Records—Such scores must be fired in individual matches. No score fired in a team match will be considered for recognition as an individual record.

National Record Reporting forms are mailed to sponsors of NRA Registered Tournaments by NRA Headquarters.

17.6 Co – Holder Records-Tie-Breaking Rules 15.12 and 15.13 will apply when establishing National Records. Co-Holder status will be accorded to individuals when their score equals a National Record.

18. COMPETITORS’ DUTIES AND RESPONSIBILITIES

NOTE: The following competitor’s duties are in addition to those specified elsewhere throughout these Rules.

18.1 Discipline – It is the duty of each competitor to sincerely cooperate with tournament officials in the effort to conduct a safe, efficient tournament. Competitors are expected to promptly call the attention of proper officials to any infraction of rules of safety or good sportsmanship. Failure of a competitor to cooperate in such matters or to give testimony when called upon to do so may result in said competitor being considered as an accessory to the offense.

18.2 Knowledge of Program – It is the competitor’s responsibility to be familiar with the program. Officials cannot be held responsible

for a competitor's failure to obtain and familiarize himself with the program.

18.3 Eligibility-It is the competitor's duty to enter only those events for which he is eligible and to enter in the proper classification.

18.3.1 Competitors Will Score-Competitors will act as scorers when required to do so by the Match Director or Chief Range Officer, except that no competitor will score his own target.

18.4 Classification-It is the competitor's duty to have their current Classification Card in their possession when using a classification system. Unclassified competitors must obtain their Score Record Book from the Official Referee, Supervisor, or Tournament Officials.

18.5 Individual Entries – In individual matches it is the duty of the competitor to make his own entries on the forms and in the manner prescribed for that tournament. Errors due to illegibility or improper filling out of the forms are solely the competitor's responsibility. The Statistical Office is not required to accept corrections after the entry closing time.

18.6 Squadding Tickets-It is the competitor's duty to secure his squadding ticket for each match (or to consult the squadding bulletin) in ample time to permit reporting at the proper time and place to fire each match. It is not the duty of officials to page competitors to get them on the firing line. Competitors upon receipt of squadding tickets should inspect them for correctness of competitor's number and non- interference in squadding assignment. Errors should be reported immediately to Statistical Officer.

18.7 Reporting at Firing Point-Competitors must report at their assigned firing points immediately when the relay is called by the Range Officer. The proper handgun and ammunition for that particular match must be ready and in safe firing condition. Time will not be allowed for repairs, sight blacking, sight adjustments or search for missing equipment after a relay has been called to the firing line.

18.8 Timing-Time for the firing of a string (within the official time limit) is the competitor's responsibility.

18.9 Loading-No competitor will load a handgun except at the firing point and after command has been given by the Range Officer.

18.10 (Blank)

18.11 Checking Scores and Signing Score Cards – It is the duty of competitors to check their scores as written on score card and to sign score card at the conclusion of match. When scoring is done in the Statistical Office competitors must promptly check Preliminary Bulletin and call attention to errors within the time specified at that tournament. Failure to check scores within time limit forfeits the right to challenge.

18.12 Clearing the Firing Point – It is the competitor's duty to leave firing point promptly at the conclusion of his relay. When leaving the firing point pistols must be unloaded and holstered or cased.

18.13 Checking Bulletin Board – It is the duty of all individual competitors and Team Captains to check Bulletin Board between each match. The Statistical Officer must be immediately notified of apparent errors. Official Bulletins must be checked and the Statistical Officer notified of any discrepancies between the Preliminary and Official Bulletins. Match Director's Bulletins on the Bulletin Board have the same effect as conditions printed in program. It is the duty of competitors to familiarize themselves with all such Match Director's Bulletins.

18.14 Score Cards Must be Signed – At the conclusion of scoring, the scorer will add the value of the shots, place the total on the score card and sign the card. The competitor checks value of individual shots, the total, and signs the card. (In case of discrepancy between individual shot value and totals, individual shot value will be accepted as correct). If a competitor or Team Captain leaves firing line without signing card, no protest will be allowed. If the competitor or Team Captain desires to protest, he shall write “protest” on the score card above his signature. Team Captains verify and sign score cards in team matches.

18.15 It shall be the competitors’ responsibility –

- (a) That all equipment meets all rules and match specifications in any match in which that equipment is to be used.
- (b) That competitor’s position conforms to the rules
- (c) That competitor has full knowledge of the rules under which the match is fired.
- (d) That after due warning of any infraction of existing rules, that competitor shall understand that a repetition thereof shall be the subject of disqualification for that match or tournament.
- (e) When targets are framed by the competitor, to frame the correct target for the specific match and distance. In such a case, shots fired on an incorrect or on a used target are disqualified.

19. NATIONAL ACTION PISTOL CLASSIFICATION

19.1 Classified Competitors – Are all individuals who are officially classified by the NRA for Action Pistol Competition, or Rimfire Action Pistol Competition or who have a record of scores fired over courses of fire used for classification (see 19.4) which have been recorded in a Score Record Book.

19.2 Unclassified Competitor – Is a competitor who does not have a current NRA Action Pistol Classification, or Rimfire Action Pistol Competition either regular or temporary by Score Record Book (Rule 19.14), nor an “Assigned Classification” (Rule 19.6). Such competitor shall compete in the Master Class.

19.3 (Blank)

19.4 Matches Used for Individual Classification – Scores used for Action Pistol classification and Rimfire Action Pistol or reclassification include all scores fired in NRA-sanctioned individual and team competitions of the types defined in Rule 1.6 (except Postal Matches) over the following courses of fire:

- (a) Los Alamitos Pistol Match
- (b) The Moving Target
- (c) International Rapid Fire Modified
- (d) Advanced Military Pistol Match
- (e) Practical Event
- (f) Barricade Event
- (g) Moving Target Event (Mod.)

- (h) Falling Plate Event
- (i) Crawford Barricade Event
- (j) Combat Event
- (k) Ambidextrous Match.
- (l) The Unsupported Standard Match
- (m) The Speedload Challenge Event
- (n) The Tyro Match
- (o) Barricade Event (Modified)
- (p) Texas Moving Target Event
- (q) Any component part of these courses when fired as a single stage event

Scores from Sanctioned League competitions may be used in Score Record Books if applicable (Rule 19.14) during the league season but will not be entered in the official classification or reclassification procedure until completion of the league season.

19.5 Compilation of Scores for Classification Averages – Scores fired in complete matches or stages over the above courses will be combined and averaged to establish a competitor’s classification, except that the scores from Action Pistol (Centerfire) and Rimfire Action Pistol will not be combined. In Action Pistol, all calibers will be combined.

19.6 Assigned Classification – A competitor who has no NRA Action Pistol Classification, or Rimfire Action Pistol Classification, either regular or temporary by Score Record Book (Rule 19.14), but who has an NRA classification in one or more of the Pistol categories listed below, will be given an “assigned classification” corresponding to his highest in those categories:

- (a) Outdoor Pistol
- (b) Indoor Pistol
- (c) Police Pistol Combat
- (d) International Pistol (Free, Air, Center, Rapid Fire or Standard)

This “assigned classification” will apply until superseded by a temporary or regular classification.

The use of an “assigned classification” does not exempt an individual from having to complete the Tyro Course, if required by the tournament sponsor.

19.7 Lack of Classification Evidence – It is the competitor’s responsibility to have his NRA Official Classification Card or Score Record Book with required scores for temporary classification (Rules 19.1 and 19.14) and to present classification evidence when required. Any competitor who cannot present such evidence will fire in the Master Class. A competitor’s classification will not change during a tournament. A competitor will enter a tournament under his correct classification and fire the entire tournament in that class. Should it be discovered during a tournament that a competitor has entered in a class lower than his current rating, the tournament records will be corrected to show the correct classification for the entire tournament.

19.8 Competing in a Higher Class – Any individual or team may elect, before firing, to compete in a higher classification than the one in which classified. Such individual or team must fire in such higher class throughout the tournament and may not revert to earned classification for any event in that tournament.

19.8.1 Combining Classes – When there are insufficient entries in any class to warrant an award in that class according to the match program conditions, the individual or team concerned may be moved by the Tournament Match Director to a higher class provided this change is made prior to the individual or team concerned having commenced firing in the tournament.

19.9 Obsolete Classification and Scores – All classifications and scores (including temporary, Rule 19.4) except Master, shall become obsolete if the competitor does not fire in NRA competition at least once during 3 successive calendar years. Master classifications and scores shall become obsolete if the competitor does not fire in NRA competition at least once during 5 successive calendar years.

19.10 Appeals – Any competitor having reason to believe he is improperly classified may file an appeal with the NRA stating all essential facts. Such appeal will be reviewed by the NRA Protest Committee.

19.11 Protests – Any person who believes that another competitor has been improperly classified may file a protest with the NRA stating all essential facts. Such protests will be reviewed by the NRA Protest Committee.

19.12 Team Classification – Teams are classified by computing the “team average” based on the classification of each firing member of the team. To compute the “team average” the key in Table No. I (below) – for the different classes will be used and the team total divided by the number of firing members of the team. Any fractional figure in the team average of one half or more will place the team in the next higher class. The “team average” will establish classification of the team as a unit, but will not affect in any way the individual classification of team members.

Master	4

19.13 Reporting Scores – NRA Competition (Rule 1.6) sponsors will report to the NRA all individual and fired team match scores fired over the courses stated in Rule 19.4. Scores fired in individual events will be reported as aggregate totals, and scores from fired team matches will be reported as a separate aggregate total. Scores from all tournaments and Sanctioned Leagues will be reported by each sponsor no more than 30 days following completion of the tournament firing schedule.

19.14 Score Record Book (Temporary Classification) – A Score Record Book will be obtained by each unclassified competitor from the Official Referee, Supervisor, Tournament Statistical Officer, or Sanctioned League Secretary at the time the competitor competes in his/her first tournament. They will record all scores fired by themselves in all NRA competition (except Postal Matches) until he/she receives their Official NRA Classification Card. The competitor will total all scores and divide that total by the number of 6-shot strings represented. The

average so obtained will determine the competitor's NRA Classification at that time (see Rule 19.15 for average score for each classification).

Individual and team scores fired by the competitor during at least one tournament (Rule 1.1), or from the most recent league match (Rule 1.6 (h)) must be posted in the Score Record Book to establish a Temporary Classification. The Score Record Book will be presented by the holder at all NRA Competition entered until the competitor's Official NRA Classification Card becomes effective.

NOTE: It is the competitor's responsibility to obtain the Score Record Book, enter scores, and present it at each tournament until his Official NRA Classification Card becomes effective. When the NRA Classification Card becomes effective the Score Record Book becomes obsolete.

19.15 Individual Class Averages – Competitors classified, or reclassified on the basis of scores fired under the conditions specified in Rule 19.4, reduced to 6-shot averages, those averages leading to classifications as shown in Table II below:

TABLE NO. II – INDIVIDUAL

Class	
High Master	59.40 to 60.00 (99%-100%)
Master	57.60 to 59.39 (96%-98.99%)
Expert	54.00 to 57.59 (90% to 95.99%)
Sharpshooter	48.00 to 53.99 (80% to 89.99%)
Marksman below	48.00 (80%)

The averages in Table II will apply to both Action Pistol and Rimfire Action Pistol Classification.

19.16 Establishing Classification. – A competitor will be officially classified by the NRA when the total score for a minimum of 144 shots has been reported. However, classification averages will be computed only after the total score for a tournament or league has been posted, and, therefore, the average may be based on a greater number of shots, but will not be based upon a lesser number. Total scores so reported to the NRA will be posted to the Classification Record for the competitor concerned. When the scores for the stated minimum of 144 shots (or more if this minimum is reached during the scores of any tournament or league) have been so posted, the average score per 6-shot string will be computed. The competitor will be sent an Official NRA Classification Card for either Action Pistol, Production Action Pistol, Rimfire Action Pistol or Metallic Action Pistol, based on the average so computed and according to the table in Rule 19.15, which classification will become effective the date shown on the card issued by NRA.

19.17 Reclassification – A competitor who has been classified by the NRA will be reclassified as follows:

- (a) NRA Headquarters will record all scores which qualify for classification purposes according to Rule 19.4
- (b) A competitor will be considered for reclassification upward when his scores for not less than 288 shots, fired subsequent to the tournament date at which he earned his current classification, have been recorded as prescribed, except that such consideration will not include tournament or league scores until after all scores for the tournament or league competition have been recorded. If his average scores so justify, he will be reclassified upward accordingly.
- (c) A competitor will be reclassified downward only upon a written request by him to the NRA, and only on the basis of at least 720 shots recorded as prescribed, fired subsequent to the

effective date of his current classification. If his average scores so justify, he will be reclassified downward accordingly.

- (d) If after reclassification downward, a competitor regains the classification thus vacated, he will not again be reclassified below the latter.
- (e) A reclassified competitor will be provided new Classification Card showing the effective date.

23. NRA ACTION PISTOL PROBATIONARY PROGRAM RULES

These rules are provided for the conduct of the NRA Action Pistol Probationary Program. Scores fired in this competition will be used for classification for a “Probationary” classification card. A competitor will be officially classified by the NRA when the total score for a minimum of 144 shots has been reported. For scoring and classification purposes the “Probationary Course” will be kept separate from the standard NRA Action Pistol classification card.

In NRA Action Pistol Probationary Program competition, the Action Pistol course of fire (COF) will serve as a stepping stone in the discipline of NRA Action Pistol and allow new shooters to achieve “confidence building” scores, help maintain their interest, and lessen the intimidation to the longer distances found in NRA Action Pistol (NRA/AP) courses of fire. This should help to grow the sport at the junior and club levels

Targets authorized for use will be the NRA AP-1, AP-2 and 8” circular Steel Targets. Firearms available for use are semi-automatic pistols and revolvers meeting the requirements in NRA Action Pistol Rule 3 – Firearms, Equipment and Ammunition.

Positions authorized for NRA Action Pistol Probationary Program will follow NRA Action Pistol Rule 5 – Position Courses of fire are listed in NRA Action Pistol Rule 7 – Courses of Fire & NRA Action Pistol Rule 10 – Range Command, Control and Operations. All courses of fire listed below exceed a distance of 15 yards. Therefore all approved cours-

es of fire will be conducted by the description given thereafter. Courses of fire that exceed 15 Yards: Los Alamitos, Moving Target Event, Modified Moving Target Event, International Rapid Fire, Practical Event, Barricade Event, Falling Plate Event, Combat Event, Ambidextrous Match, Unsupported Standard Match, and Speedload Challenge Event.

Description: For all NRA Action Pistol courses of fire that finish at a shooting distance greater than 15 yards, the strings will be condensed and fired as such: If you have four (4) separate firing distances in a COF, using the Practical Event as an example; 10 and 15-yard strings would all be fired at 10 yards; 25 and 50-yard strings would all be fired at the 15-yard line. This same principle is applied to all courses of fire. For the International Rapid-Fire Event, the entire course will be fired from the 15-yard line.

No National Records will be issued for this Probationary Program. The NRA Action Pistol Committee will review participation at the 2015 NRA Action Pistol Committee meeting to see if it should be added to the NRA Action Pistol Rule Book as permanent courses of fire.

Classification cards for the Probationary Action Pistol courses of fire may NOT be used while competing in a “Standard” NRA Action Pistol competition where the competitor is firing from the actual prescribed distances per NRA Action Pistol rules.
